From the Ex. Vice Chancellor's Desk

I am honored to be part of Children's University, Gandhinagar. I join the university with the commitment to not only keep up the past glories but also to steer the institution on the path to new directions in keeping with the demands of the new times. The last few years have changed the nature of demands from an education of higher learning with unprecedented developments in opening up of the boundaries of the subjects into interdisciplinary nature. The New Education Policy 2020 reflects the shift in vision regarding education from the creation of a resource pool to a path of holistic development of the person.

It is the aspirational vision that coming together, staying together and working together for the augmentation of the institution and building the nation. Let us aspire to build the institution back into a centre for excellence not just in the official sense but also in the perception of the people with Interdisciplinary nature of research, I assure you of my complete support for any proposal and effort towards our University growing into a vibrant space for learning, growth and grooming the future builders of the nation.

I firmly believe that the University will only succeed in its vision in the years to come if the students can achieve their potential not just in terms of academic excellence but also in co-curricular areas of sports, culture and art. We strive to provide an environment for their all-round development. Their success reflects upon the perception of the people regarding the institution.

At this juncture I acknowledge the contribution of the previous office bearers who have contributed to the development and flourishing of the university. I take the opportunity to also gratify the students and parents who have trusted the university and have imbibed the education. I acknowledge the contribution of all the alumni who have made an indelible mark wherever they reached and proved the motto of the University "Every Child Matters". We urge our alumni for their active coordination, cooperation, guidance and constructive suggestion for the betterment of their alma mater.

If the university is to succeed in broadening its horizons of its vision, it needs the contribution and support of all the stakeholders including the students, the teachers, the staff, the guardians and the people. I urge all of you to come together to create an environment where this aspiration is fulfilled.

Our ability to transform lives and society underpins who we are and what we do. We have built our reputation on delivering remarkable research that changes the world, the highest quality teaching that transforms lives, and powerful partnerships that create new possibilities, transforming the way we approach and tackle the challenges that face us locally and globally.

From Editor's Desk

It is a matter of great pride and privileged to express gratitude in shouldering the responsibility of preparing an Annual Report of Children's University, Gandhinagar. The university has maintained a trajectory of steady and sustained growth since its inception in 2009. The University's growth has been stupendous in terms of its infrastructure, Departments, new courses and programmes.

The Annual Report of the University portrays the wide spectrum of various academic and co-curricular activities at the University and its affiliated centers. The Editorial Committee has candidly tried to capture the vibrant academic environment that exists in the University Campus highlighting the research projects, research publications, participation in international seminars and workshops, special achievements including awards and honours. The notable contributions made by the faculty members and some of the achievements of the students are also included in the pages that follow. The Annual Report also provides highlights of the activities in the affiliated Centres. We hope that the Annual Report 2021-22 presents successfully the academic culture of Children's University.

We are grateful to our Hon. Vice-Chancellor Dr. Harshad Patel for his constant support and encouragement in bringing out this report. We are also thankful to the Heads of the Departments and directors of different schools for providing the committee with the information included in this report. At the end, the Committee would like to extend heartfelt gratitude to all those who have contributed directly or indirectly in preparing and publishing this Annual Report.

FOREWORD

The land of Gujarat is known for innovation and experiment. The land has witnessed many path breaking raptures within the fields of politics, academics, economics and so for. This is the land of father of nation Mahatma Gandhi and Iron man Hon. Sardar Vallbhai Patel. Shri Gijubhai Badheka, Harbhai Trivedi, Nanabhai Bhatt did continuous efforts for child education with different experiments. In this direction the Gujarat has taken a lead forward in the direction of child development. This initiative is Children's University, which was established in the year 2009 as dream of Hon. Narendrabhai Modi. The university gets its functional design under the guidance of visionary educationist respected Prof. Kiritbhai Joshi. This initiative will draw new path in the area of holistic child development.

The Honourable Chief Minister of Gujarat and present Hon. Prime Minister Shri Narendrabhai Modi, while emphasizing this he explained the urgent need of the University that may specifically be made for the growth and development of the future generations. Apart from this, as he pointed out, the prime focus of this institution would be to avail the path-breaking researches dealing with the children's studies. The prime aim is holistic development of child centric education on Indian thinking and spirituality which covers whole life span of human that is from conception to adulthood (-9 month to 18 years) which make this university very unique, novel and path breaking from all other conventional universities. This is very important matter for the government of Gujarat to work in the area of child development in very different way. The university is presently working in the following area in four dimensions i.e, Research, Education, Training and Extension Services. Brief Description of the Schemes of Children's University is as follow:

INCEPTION OF UNIVERSITY:

The global tradition of academia has no particular institution that could cover a wide range of the children related studies. This domain of sheer avoidance was first torched light upon by Shri Narendra Modi the then Chief minister and present prime minister of India. However it was Prof. Kiritbhai Joshi who moulded and elaborated this idea to the height of the institution. This concept is about to enter in its mature phase and is prepared to counter the challenges that fall under this field which are as follows:

- To build the human future of the Nation basing the ideals of the antiquity and to provide the knowledge of modernity in order to shape the devinely inspired children.
- To create a bridge between the schooling systems and the University set-up and form a connecting path to liberate the generation to come from the evil of individualism and self-centeredness;
- To identify the distinct nature of every child and to prepare their young minds for the quest of knowledge that would be an amalgamation of *Bharatiya Darshans* and Ultra Modern skills.

- To lay emphasis on the spiritual aspect of the personality (In Act this is the first university of the world whose frame of Act includes four dimensional development of the students including the spiritual part at its center.)
- To make the generations to come understand the value of interdependence that is the core of Indian modern antiquity;
- To lay the emphasis on divergent thinking and provide them atmosphere to think critically and creatively;
- To generate novel paradigms of job opportunities for the students
- To inspire researches that may pave the way to the global acknowledgement of *Bharatiya* philosophy.

THE VISION OF THE CHILDREN'S UNIVERSITY:

- The children of today have to be prepared to become builders of the future, - the future which would be marked by the alternative of competitive individualism by availing to them the synthesis of individual liberty, collective egalitarianism and universal and spiritual fraternity;
- The future will be liberated from disabling skepticism and from comforting arrestation of quest of knowledge, and progress will be accelerated by ardent aspirations to realize higher spiritual truths and their manifestation in physical life;
- The new world of the future will also cultivate material life so as to make it prosperous and rich and it will replace poverty wherever it exists by the elimination of drudgery, exploitation and slavery and encourage nobility, dignity and continuous empowerment.
- The Children's University will lead the children of today to build a new world of friendliness, mutual respect and harmony that transcends all the barriers of narrow-mindedness and blind conflicts resulting from exclusivism and burden of the past that strives to linger against the pressure of the future of uplifting light and prosperity.

MISSION

The mission of the children's University will be to undertake vast areas of researches falling under the purview of the children's studies and then after to employ the results of them into the making of an effective three fold program in the state of Gujarat i.e., :

- Every child matters;
- Integral development of the child that unites scientific realism and aesthetic creativity by availing the synthesis of science and spirituality;
- Synthesis of the East and the West, of the ancient and the modern, by means of intense studies of the lessons of history directed towards the task of building a new world of knowledge, freedom and prosperity that are denied to none.

OBJECTIVES

- Objectives of the University would be formulated in the light of the guidance visible in the

modern *Darshans* of Maharshi Dayananda Saraswati, Swami Vivekananda, Mahatma Gandhi, Rabindranath Tagore, and Sri Aurobindo and many other pioneering educationists and thinkers of India and the world;

- Ideal of nationalism in harmony with the ideal of internationalism;
- Education of the body, vital consciousness, mind as also psychic consciousness and spirituality should be placed in the focus of the research and educational activities of the University;
- Education should not only impart knowledge but should also inspire character and cultural values;
- Scientific realism and artistic creativity should be synthesized during the course of the education of the child;
- The Children's University will impart education on the four pillars of modern times those are : Learning to know, Learning to do, Learning to live together and Learning to be;
- Education for life and for the journey of life that would include the harmonious growth of the individual, family, society and the world, with special emphasis on the ideal of social service;
- Expansion of ancient wisdom in the light of modern developments and research;
- Education of the child should aim at the development of sterling character filled with patriotism and dedicated to self - reliance and dignity of labour and harmonious development of the body, life, mind and spirit, capable of meeting successfully the challenges of contemporary times and capable of molding the commitment to our country and the highest values of culture, as also to Fundamental Duties enumerated under Article 51A of the Constitution of India;
- Establishment of facilities, programs and activities that would promote at all levels of education concerns for the development of the child, in particular reference to:
- Harmonious growth of health, strength, agility and health of the body mind and spirit;
- Qualities of quest for the truth and knowledge, courage, heroism, adventure, enterprise, initiative, enthusiasm and dynamism of active life;
- Qualities of sympathy, friendliness, fairness, justice, patriotism and universal welfare in all its aspects;
- Qualities of multiple skills and applied technology; and
- Qualities of unity, mutuality and harmony that spring from the deepest psychic and spiritual recesses and which can be nurtured by the processes of learning to be and to become.

DISTINCT NATURE AND FEATURES OF THE CHILDREN'S UNIVERSITY

The Children's University is unique in many ways from the conventional university set up. The University covers very wide area of stakeholders concerning with the child's holistic development. The University's foundation lies on the spiritual base. The organizational structure of the University

is also different to fulfil the unique functions of the University. The functions of the University are distributed in very wide spectrum of disciplines which includes philosophy, sociology, psychology, languages & literature(s), education, technology, medical sciences etc. The University concerns with the holistic development of the child. For the accomplishment of this maverick goal, the University has encompassed a wide spectrum of child's growth and development. Some of the distinct features of the university are as follows.

1. The University includes the holistic development of every child beginning from the mother's womb to adulthood whereas conventional universities mainly focus on the higher education after the completion of school education.
2. All stakeholders concerned with the all round development of children are also included in the area of the University i.e., children, parents, family, educational innovators, educational leaders, teachers of all levels, various communities, policy makers, government officers etc.
3. The University is aimed at transforming the prevailing educational system. This paradigm shift will take place through research, education, training and extension services. The child centric research is much neglected area within the higher education fraternity. The University is adamant to fill this gap.
4. The University primarily focuses on the synthesis of ancient Indian wisdom and modern scientific knowledge. The University will work for rejuvenating the essential values in all walks of life.
5. The University will contribute to the field of child development on the basis of researches guided by various research-councils of the Center of Research.
6. The University shall have the Director General whose functions are laid down in the Act. The Director General will play the pivotal role for the realization of the mission of the University.
7. The University will provide research fellowships to the upcoming researchers to promote child centric researches. The scheme of research fellowships to novel researches is the key feature of the University.

SCHOOL OF HUMANITIES

The School of Humanities has been started in campus of Children's University from the academic year 2020-21. The prime aim of the School is to develop and offer academic programmes in order to perpetuate the larger vision and mission of the University. The School of Humanities, Children's University, Gandhinagar comprises of two different disciplines to innovate, create and revolutionize the humankind.

The Academic Programmes on offer include: PhD in Psychology and Social Work, Master's Degree Programme in Psychology and Social Work.

The courses offered by the School of Humanities endeavour at imparting and generating knowledge and information on emerging issues and problems of contemporary society, economy, environment, human behaviour and polity. The course structure is choice based, flexible and is interdisciplinary in nature to cater to the mammoth segment of the society, the youth. At the end of the course, a student would be equipped with analytical skills, social science theoretical knowledge based on empirical and field-based learning. Thus, a student with this kind of learning can look forward to careers in teaching, counselling, management, NGO, public health, Sustainable Development, research, policy making, development sector, media and administration and so on.

The programmes offered by disciplines relate to core subject areas but at the same time straddle disciplines, in order to enlarge the canvas for academic pursuits. The School also links the development of courses to the ever-expanding socio-economic and political contexts in which School of Humanities and Social Science processes occur. The school of Humanities functions aligned with the noble objectives of Children's University.

The main function of school of humanities is divided into four parts:

Education:

To offer Certificate, Diploma, PG, M. Phil and Ph.D. courses in the subject of Psychology and Social Work

Training:

To impart training to research student as well faculty for preparing M.Phil & Master level Dissertation and Ph.D. thesis and also making proposal to be submitted to funding agency for fellowship, research award, post-doctoral research, major and minor project etc.

Research:

To carry out research project fulfilling the philosophy of Children's University and publish the report for the same for human welfare.

Extension:

To conduct such field activities which can transfer the knowledge of the subjects of humanities for solving the problem facing by the society in collaboration with NGOs and through Bal Mitra- Parivar Mitra scheme.

About Department of Psychology

The Department of Psychology of Children's University is interested in the holistic development of children up to the age of 18. Courses like M.A in Child Psychology and PhD in psychology have started in 2016 and 2017 respectively. The origin of the Department of Psychology was one of the significant contributions by Prof K. SCHOOL OF INNOVATIVE EDUCATION:

Education, being a social institution serving the needs of society, is indispensable for society to survive and thrive. It should be not only comprehensive, sustainable, and superb, but must continuously evolve to meet the challenges of the fast-changing and unpredictable globalized world. This evolution must be systemic, consistent, and scalable; therefore, school teachers, college professors, administrators, researchers, and policy makers are expected to innovate the theory and practice of teaching and learning, as well as all other aspects of this complex organization to ensure quality preparation of all students to life and work.

Innovation is the key for development of any field. Innovation promotes the new efforts which can bring new knowledge. New knowledge means new solutions for the problems. It is very essential to support new and innovative idea in the field of education. By stepping up outside the box we can find new solutions and ways for challenges of education. Innovation allows imagination to flourish and not be afraid to try new things. It may be possible that these new things might fail but when these innovation succeeded it's become awesome. Without the right attitude, innovation would just be a word and the art of education would miss out on some great accomplishments.

School of Innovation is playing role of fly wheel for the transformation of prevailing education system. The school constantly tries new and creative thoughts to transform them in application. The field of education is actually application of theories. It is also very crucial to keep the system updated and compatible with the changing situation. The school aims to develop attitude for innovation by providing proper ecology of thinking without boundaries. The name of school itself indicates that this school is established to bring and encourage unconventional practices in the field of education. The functional area of Children's University is from prenatal to higher education for holistic development of child. This school will play pivotal role as backbone to application of new ideas in the area of child development and education.

Children's University Act has given more emphasis on research work. Besides that education, training and extension service is also given importance in it. The work of the School of Education will be carried out in four dimensions. The various tasks in these four particular areas are as follows.

Research

This function of the school is to identify innovative work in classroom teaching and other educational practices. The school will identify these innovative pedagogical practices and other experiments exist in the field education from preschool to higher education. Moreover the school will take up major research projects for innovative pedagogical practices, teaching learning material, school management and new horizons in the field of school education. Further the school will also try to find out possibilities to introduce ancient Indian educational thinking and applications which are relevant to modern times.

Education

This dimension of the school is related with two areas. First one is to prepare and introduce new innovative curricula on the basis of researches. These courses will not be so generic and such which are offered by the conventional institutes but specifically which are focused on child development and education. The second and most important area is to work with educational and other institutes which are working in the field

of education and child development. The school will establish the relationship with them and try to develop innovative strategies in the area of philosophy, psychology, sociology, management and pedagogy. It will create atmosphere for creative thinking for betterment of child education.

Training

The school will provide wide opportunities for professional development to various stake holders like teachers, principal, managers and parents. The school through various department organized training programs on subject ranging from preschool education to higher education. The department will provide professional orientation to school teachers, principals, research scholars and professors on continuous basis.

Extension Services

The school will develop network to provide the awareness and orientation on the results of research. Various awareness programs will be organized by the school through departments for preschool education, child rearing, child development, child education, toddler's education, ECCE and problems related to school going children and parenting for holistic child development. The school will create various awareness materials like pamphlets, flyers, brochures, booklets etc for the use of community at large.

About Department of Education

Children's University is committed for the development of every child right from one's mother's womb to one's full teen age. The aim of Children's University is to promote academic excellence and provide opportunities for the holistic development. To fulfill this prime goal the University has established Department of Education in the year 2016 by offering M.Phil and Ph.D. programs. This course offers wide understanding with practical exposure to learner to be a good counsellor. It is very important course which covers wide range of psychological concepts related to school education, counselling and therapies.

About the School of Languages & Linguistics :

It is obvious that languages a crucial role in various aspects of our daily lives. Their role is not only limited to communication, rather it extends into the vast branches of knowledge and human sciences. Languages are capable of developing human knowledge and extending it for the benefit to the human kind. The general importance of languages justifies the need for a scientific and objective study of the relationship between languages and education.

The School of Languages and linguistics in the CU came into existence in the year 2020 in accordance to the University Act and ordinance. The school of languages and linguistics, Children's University, Gandhinagar is unique in nature as it caters to the class and not the mass. As it's strategically planed from micro to macro level of imparting education in various languages and linguistics. The School of Languages and Linguistics – Children's University, Gandhinagar focuses on Gujarati, Sanskrit and English Languages. The school respectively works for the child education in literature.

About the Department of Sanskrit:

Each nation has its cultural and historical background and language is very important component to every culture. In this context, Sanskrit is the representative language of Indian tradition. It is not merely a language, nor it simply functions as the mother of all languages, but, apart from this, it is the vital force that governs Indian ways of leading an ideal life. In the contemporary era, the study of ancient literature gains lots of attention. Scholars across the global traditions have remained keen to study this language for ages. The Department of Sanskrit is determined to cover following three points in relation to this language: (i) Research in the different forms of sixty four arts, (ii) Study of Spirituality and Great Ideals of life and (iii) learning Sanskrit literature from Indian point of view.

Four Dimensions of Department

The main motif of this department is the realization of Children's University's unique dream. This department has a purpose to call divine souls on this Earth. Its work is divided into four parts:

- (I) Education,
- (ii) Training,
- (iii) Research and
- (iv) Extension.

This department is determined to complete the cycle of development covering Vedic and Post Vedic Oratures to Smritis and Shatak Kavya tradition. With the help of ancient philosophy embedded in our divine literature, this department envisions to explore the boundary of human intellect to the level of divine manifestation. Children's University is working for the realization of some heart-touching epigrams-

- | Every child matters.
- | A Bright Child: A Bright Nation'
- | "I am the embodiment of unique perennial bliss."

Right from the beginning, this University works persistently to follow the ideals set by our great

thinkers and enlightened souls including Maharshi Dayanand Saraswati, Swami Vivekanand, Rabindranath Tagor, Maharshi Aurobindo, Mahatma Gandhi, Gijubhai Badheka etc.

The poetry of Upanishad is the real crux of Vedic tradition as it holds not the liturgical part but the spiritual essence. It exerts influences on many branches of science including Eugenics. In Garbhpanishad, there comes a description regarding the creation and development of embryo. Muktopanishad deals with the goals of liberating soul from a worldly state to infinite form. Even in the Samhita of Rigveda, there are concepts regarding mother and her child's health.

Features

There are some other goals as well that the Department envisions achieving and they are as follows:

1. There will be a unique curriculum of Sanskrit subject (Garbhasamsakar) at the Master level program.
1. The research areas such as Garbhasamsakar, children's literature in Sanskrit etc. will be given special focus in M.Phil. and Ph.D. programs.

SCHOOL OF CHILD, YOUTH AND FAMILY DEVELOPMENT

About School

The Children are the creator of bright future. Physically healthy radiant in mind and intellect by heart and full of inner strength us strength, such children will become the best citizens of the Nation and they will create the Great Nation of Twenty-First Century. For such holistic development of children Hon'ble Prime Minister and the then Chief Minister of Gujarat Shri Narendra Modi has established Children's University which ensures to provide all needed help and care for the integral development of the Child and Tapovan Kendra is its first step towards this new endeavor which would provide Prenatal Care and Education. Because education must begin at prenatal stage and education must continue right through the whole life. Thus the expectant mothers have a very unique role to play in this progress of human evolution.

The concept of 'Tapovan'

The concept of 'Tapovan', introduced by Children's University has been formulated taking into consideration the integral development of fetus by rekindling and strengthening the mother's aspiration to give birth to a soul who will be a fore-runner of a New humanity in an age when the people are under a strong influence to achieve materialistic fulfillment and spiritual fullness.

Tapovan has been conceptualized taking into consideration the modern life style of the people. Tapovan will provide an opportunity to pregnant woman to devote herself not only for her self-development, but also for the growth of the fetus taking places within her body because the woman's role is that of a mini creator. So, it is natural for her to feel happy as she is forming a baby within. Motherhood is the happiest moment for any woman. There are many aspects which influences the woman when she is pregnant.

Features

The need of the hour is to create a health care system which offers an ideal milieu for physical, mental, emotional and spiritual well being of expectant mothers. Tapovan is a place where mothers to be will get the necessary and essential requirements for the integral development of a child.

Mother's inspirational thoughts and action make very impression on child's physical body, mind and nervous system. Innumerable instances are mentioned in our sacred books. Even, the modern medical science has proved that the fetus in the uterus absorbs the thoughts and knowledge acquired by the mother during pregnancy. Keeping this in mind every mother should try to keep herself relaxed and happy by having pleasant positive, noble thoughts and emotion. It has been also proved that the embryo reacts to mother's emotional behavior.

6.5 Environmental Cell

The University is very sensitive for environmental protection and awareness, and it remains concerned with various activities for awareness creation and environment protection. The programs such as tree plantation, Arnyotsav etc. were organized on the campus. Moreover the campus has a very rich garden having diverse species of plants and trees. In addition the university has developed the University Circle in the vicinity of its campus situated in Gandhinagar, known as Children's University circle. It is required to mention here that circle has eco-friendly settings. In order to sustain the level of greenery and beauty of its campus the University celebrates a week long festival of planting trees and plants. The campus has more than hundred trees and herbal plants that add a distinct charm to its academic environment. As a part of environmental awareness program, series of lectures on different topics regarding the preservation and protection of environment is organised regularly.
