From the Vice Chancellor's Desk

Life is a wonderful gift of the Almighty to the entire human race. Life can be beautified with education and beautified education can be returned gift to the omnipotence.

Everything can be valued in two ways gross and subtle. If we look at education from a gross point of view, it will give career, skills and materialism. Understanding education from a subtle point of view will provide a sense of duty, a vision of life and a true understanding of life. We probably need both in the present era even corporeality and subtlety. Only the auspicious combination of the two will teach us to live properly through the four *purusharthas of Dharma, Artha, Kama and Moksha*. We need both information as well as understanding. There will also be need of awareness and of courtesy and connectivity with culture. It is essential to create an education that would enable us to see both near and far through spectacles with bifocal lenses.

Moreover, the structure of present education needs a tremendous overhaul as well, There was a time when our education system was very much ingrained in our cultural traditions. However, the same cannot be said for the present set-up. In my view, if we will not transform our academics as per the needs and geography of our land we may not be able to achieve the dream of our Hon. Prime Minister Shri Narendrabhai Modi in imminent future.

Children's University, Gandhinagar has continued to grow and accelerate during 2020-21. It was a remarkable year for the University. The University has taken a big leap in the direction of taking society to plan the progeny that is intended. To foster the present idea of the best progeny Thirty Four Tapovan centers around the state of Gujarat are initiated in this year.

Anniversaries are not only times for reflection but also for renewal and rebirth, and in 2021 we unveiled a new identity for our University, at once returning us to our roots and propelling us to a bright new future.

From Editor's Desk

First of all, I am thankful to our honorable Vice-Chancellor Shri. Harshad P. Shah for giving the opportunity of preparing an annual report of the year 2020-21 to our team. Children's University is one of those few academic institutions that has a very unique structural set-up. It is, in fact, an only university where the faculties put their efforts to achieve the noble dream of attaining the best future in true sense. This report narrates the journey of an academic year. It includes important details to throw light on the works carried out during the academic year of 2020-21.

I express my faith in the efforts of the University and have a firm belief that in the new future the University will achieve new heights of success not only by breaking apparent boundaries lying among different academic layers but also by encouraging a new set of organic intellectuals to come forward for the achievement of divine cause. With this brief note, I again fetch the opportunity to congratulate my team for carrying out this substantial task.

CHILDREN'S UNIVERSITY : A BRIEF INTRODUCTION

The land of Gujarat is known for innovations and experiments. The land has witnessed many avant grade personalities within the fields of politics, academics, economics and so on. This is the land of father of nation Mahatma Gandhi and Iron Man Hon. Sardar Vallbhai Patel, Shri Gijubhai Badheka, Harbhai Trivedi, Nanabhai Bhatt did continuous efforts for child education with different experiments. In this direction, Gujarat has taken a lead forward in the direction of child development. This initiative is Children's University, which was established in the year 2009 as a dream of Hon. Narendrabhai Modi. The university gets its functional design under the guidance of visionary educationist respected Prof. Kiritbhai Joshi. This initiative has drawn new path in the area of holistic child development.

The Honourable Chief Minister of Gujarat and present Hon. Prime Minister Shri Narendrabhai Modi, while emphasizing this he explained the urgent need of the University that may specifically be made for the growth and development of the future generations. Apart from this, as he pointed out, the prime focus of this institution would be to avail the path-breaking researches dealing with the children's studies. The prime aim is holistic development of child centric education on Indian thinking and spirituality which covers whole life span of human that is from conception to adulthood (-9 month to 18 years) which make this university very unique, novel and path breaking from all other conventional universities. This is very important matter for the government of Gujarat to work in the areas of child development in very different way. The University is presently working in the following areas in four dimensions i.e, Research, Education, Training and Extension Services. Brief Description of the Schemes of Children's University is as follow:

VISION

The Vision of Children's University is three-dimensional.

1. To build in children a virtuous blend of individualism, universal egalitarian outlook and global as well as spiritual fraternity.
2. To make children realize the higher spiritual truths.
3. To augment knowledge capita by preparing children for substantial researches along with that, to build and create sublime character and self-pride.

MISSION

The mission of Children's University is to undertake massive researches pertaining to 'Children and their Future'. In order to serve this purpose, the following instrumental tri-dimensional conceptual points are at its center.

1. Every child matters.
2. To develop children in all dimensions by combining scientific realism and authentic sense under the inspirational force of science and Spirituality.
3. To synchronize the East and the West, the ancient and the Modern by deep study of different knowledge traditions, idea of real freedom and role of Historical background in the creation of thriving new world.
4. To achieve a result oriented circulation of its works across the state of Gujarat also falls under this paradigm.

INCEPTION OF THE UNIVERSITY:

The global tradition of academia has no particular institution that could cover a wide range of the children related studies. This domain of sheer avoidance was first torches light upon by Shri Narendra Modi the then Chief Minister and Present Prime Minister of India. However it was Prof. Kiritbhai Joshi who molded and elaborated this idea to the height of the institution. This concept is about to enter in its mature phase and is prepared to counter the challenges that fall under this field which are as follows:

- To build the human future of the Nation basing the ideals of the antiquity and to provide the knowledge of modernity in order to shape the divinely inspired children.
- To create a bridge between the schooling systems and the University set-up and form a connecting path to liberate the generation to come from the evil of individualism and self-centeredness;
- To identify the distinct nature of every child and to prepare their young minds for the quest of knowledge that would be an amalgamation of *Bharatiya Darshans* and Ultra Modern skills.
- To lay emphasis on the spiritual aspect of the personality (In fact this is the first university of the world whose frame of Act includes four dimensional development of the students including the spiritual part at its center.)
- To make the generations to come understand the value of interdependence that is the core of Indian modern antiquity;
- To lay the emphasis on divergent thinking and provide them atmosphere to think critically and creatively;
- To generate novel paradigms of job opportunities for the students
- To inspire researches that may pave the way to the global acknowledgement of *Bharatiya* philosophy.

DISTINCT NATURE AND FEATURES OF CHILDREN'S UNIVERSITY

Children's University is unique in many ways from the conventional university set up. The University covers very wide area of stakeholders concerning with the child's holistic development. The University's foundation lies on the spiritual base. The organizational structure of the University is also different to fulfill the unique functions of the University. The functions of the University are distributed in very wide spectrum of disciplines which includes philosophy, sociology, psychology, languages & literature(s), education, technology, medical sciences etc. The University concerns with the holistic development of the child. For the accomplishment of this maverick goal, the University has encompassed a wide spectrum of child's growth and development. Some of the distinct features of the University are as follows.

1. The University includes the holistic development of every child beginning from the mother's womb to adulthood whereas conventional universities mainly focus on the higher education after the completion of school education.
2. All stakeholders concerned with the all round development of children are also included in the area of the University i.e., children, parents, family, educational innovators, educational leaders, teachers of all levels, various communities, policy makers, government officers etc.
3. The University is aimed at transforming the prevailing educational system. This paradigm shift will take place through research, education, training and extension services. The child centric research is much neglected area within the higher education fraternity. The University is firm to fill this gap.
4. The University primarily focuses on the synthesis of ancient Indian wisdom and modern scientific knowledge. The University will work for rejuvenating the essential values in all walks of life.
5. The University contributes to the field of child development on the basis of researches guided by various research-councils of the Center of Research.
6. The University has the Director General whose functions are laid down in the Act. The Director General plays the pivotal role for the realization of the mission of the University. The University provides research fellowships to the upcoming researchers to promote child centric researches. The scheme of research fellowships to novel researches is the key feature of the University.

SCHOOL OF HUMANITIES

The School of Humanities has been started in campus of Children's University from the academic year 2020-21. The prime aim of the School is to develop and offer academic programmes in order to perpetuate the larger vision and mission of the University. The School of Humanities, Children's University, Gandhinagar comprises of two different disciplines to innovate, create and revolutionize the humankind.

The Academic Programmes on offer include: PhD in Psychology and Social Work, Master's Degree Programme in Psychology and Social Work.

The courses offered by the School of Humanities endeavour at imparting and generating knowledge and information on emerging issues and problems of contemporary society, economy, environment, human behaviour and polity. The course structure is choice based, flexible and is interdisciplinary in nature to cater to the mammoth segment of the society, the youth. At the end of the course, a student would be equipped with analytical skills, social science theoretical knowledge based on empirical and field-based learning. Thus, a student with this kind of learning can look forward to careers in teaching, counselling, management, NGO, public health, Sustainable Development, research, policy making, development sector, media and administration and so on.

The programmes offered by disciplines relate to core subject areas but at the same time straddle disciplines, in order to enlarge the canvas for academic pursuits. The School also links the development of courses to the ever-expanding socio-economic and political contexts in which School of Humanities and Social Science processes occur. The school of Humanities functions aligned with the noble objectives of Children's University.

The main function of school of humanities is divided into four parts:

Education:

To offer Certificate, Diploma, PG, M. Phil and Ph.D. courses in the subject of Psychology and Social Work

Training:

To impart training to research student as well faculty for preparing M.Phil & Master level Dissertation and Ph.D. thesis and also making proposal to be submitted to funding agency for fellowship, research award, post-doctoral research, major and minor project etc.

Research:

To carry out research project fulfilling the philosophy of Children's University and publish the report for the same for human welfare.

Extension:

To conduct such field activities which can transfer the knowledge of the subjects of humanities for solving the problem facing by the society in collaboration with NGOs and through Bal Mitra- Parivar Mitra scheme.

About Department of Psychology

The Department of Psychology of Children's University is interested in the holistic development of children up to the age of 18. SCHOOL OF INNOVATIVE EDUCATION:

Education, being a social institution serving the needs of society, is indispensable for society to survive and thrive. It should be not only comprehensive, sustainable, and superb, but must continuously evolve to meet the challenges of the fast-changing and unpredictable globalized world. This evolution must be systemic, consistent, and scalable; therefore, school teachers, college professors, administrators, researchers, and policy makers are expected to innovate the theory and practice of teaching and learning, as well as all other aspects of this complex organization to ensure quality preparation of all students to life and work.

Innovation is the key for development of any field. Innovation promotes the new efforts which can bring new knowledge. New knowledge means new solutions for the problems. It is very essential to support new and innovative idea in the field of education. By stepping up outside the box we can find new solutions and ways for challenges of education. Innovation allows imagination to flourish and not be afraid to try new things. It may be possible that these new things might fail but when these innovation succeeded it's become awesome. Without the right attitude, innovation would just be a word and the art of education would miss out on some great accomplishments.

School of Innovation is playing role of fly wheel for the transformation of prevailing education system. The school constantly tries new and creative thoughts to transform them in application. The field of education is actually application of theories. It is also very crucial to keep the system updated and compatible with the changing situation. The school aims to develop attitude for innovation by providing proper ecology of thinking without boundaries. The name of school itself indicates that this school is established to bring and encourage unconventional practices in the field of education. The functional area of Children's University is from prenatal to higher education for holistic development of child. This school will play pivotal role as backbone to application of new ideas in the area of child development and education.

Children's University Act has given more emphasis on research work. Besides that education, training and extension service is also given importance in it. The work of the School of Education will be carried out in four dimensions. The various tasks in these four particular areas are as follows.

Research

This function of the school is to identify innovative work in classroom teaching and other educational practices. The school will identify these innovative pedagogical practices and other experiments exist in the field education from preschool to higher education. Moreover the school will take up major research projects for innovative pedagogical practices, teaching learning material, school management and new horizons in the field of school education. Further the school will also try to find out possibilities to introduce ancient Indian educational thinking and applications which are relevant to modern times.

Education

This dimension of the school is related with two areas. First one is to prepare and introduce new innovative curricula on the basis of researches. These courses will not be so generic and such which are offered by the conventional institutes but specifically which are focused on child development and education. The second and most important area is to work with educational and other institutes which are working in the field

of education and child development. The school will establish the relationship with them and try to develop innovative strategies in the area of philosophy, psychology, sociology, management and pedagogy. It will create atmosphere for creative thinking for betterment of child education.

Training

The school will provide wide opportunities for professional development to various stake holders like teachers, principal, managers and parents. The school through various department organized training programs on subject ranging from preschool education to higher education. The department will provide professional orientation to school teachers, principals, research scholars and professors on continuous basis.

Extension Services

The school will develop network to provide the awareness and orientation on the results of research. Various awareness programs will be organized by the school through departments for preschool education, child rearing, child development, child education, toddler's education, ECCE and problems related to school going children and parenting for holistic child development. The school will create various awareness materials like pamphlets, flyers, brochures, booklets etc for the use of community at large.

About Department of Education

Children's University is committed for the development of every child right from one's mother's womb to one's full teen age. About the School of Languages & Linguistics :

It is obvious that languages a crucial role in various aspects of our daily lives. Their role is not only limited to communication, rather it extends into the vast branches of knowledge and human sciences. Languages are capable of developing human knowledge and extending it for the benefit to the human kind. The general importance of languages justifies the need for a scientific and objective study of the relationship between languages and education.

The School of Languages and linguistics in the CU came into existence in the year 2020 in accordance to the University Act and ordinance. The school of languages and linguistics, Children's University, Gandhinagar is unique in nature as it caters to the class and not the mass. As it's strategically planed from micro to macro level of imparting education in various languages and linguistics. The School of Languages and Linguistics – Children's University, Gandhinagar focuses on Gujarati, Sanskrit and English Languages. The school respectively works for the child education in literature.

About the Department of Sanskrit:

Each nation has its cultural and historical background and language is very important component to every culture. In this context, Sanskrit is the representative language of Indian tradition. It is not merely a language, nor it simply functions as the mother of all languages, but, apart from this, it is the vital force that governs Indian ways of leading an ideal life. In the contemporary era, the study of ancient literature gains lots of attention. Scholars across the global traditions have remained keen to study this language for ages. The Department of Sanskrit is determined to cover following three points in relation to this language: (i) Research in the different forms of sixty four arts, (ii) Study of Spirituality and Great Ideals of life and (iii) learning Sanskrit literature from Indian point of view.

Four Dimensions of Department

The main motif of this department is the realization of Children's University's unique dream. This department has a purpose to call divine souls on this Earth. Its work is divided into four parts:

- (I) Education,
- (ii) Training,
- (iii) Research and
- (iv) Extension.

This department is determined to complete the cycle of development covering Vedic and Post Vedic Oratures to Smritis and Shatak Kavya tradition. With the help of ancient philosophy embedded in our divine literature, this department envisions to explore the boundary of human intellect to the level of divine manifestation. Children's University is working for the realization of some heart-touching epigrams-

- | Every child matters.
- | A Bright Child: A Bright Nation'
- | "I am the embodiment of unique perennial bliss."

Right from the beginning, this University works persistently to follow the ideals set by our great

thinkers and enlightened souls including Maharshi Dayanand Saraswati, Swami Vivekanand, Rabindranath Tagor, Maharshi Aurobindo, Mahatma Gandhi, Gijubhai Badheka etc.

The poetry of Upanishad is the real crux of Vedic tradition as it holds not the liturgical part but the spiritual essence. It exerts influences on many branches of science including Eugenics. In Garbhopenishad, there comes a description regarding the creation and development of embryo. Muktopanishad deals with the goals of liberating soul from a worldly state to infinite form. Even in the Samhita of Rigveda, there are concepts regarding mother and her child's health.

Features

There are some other goals as well that the Department envisions achieving and they are as follows:

- | There will be a unique curriculum of Sanskrit subject (Garbhasamsakar) at the Master level program.
- | The research areas such as Garbhasamsakar, children's literature in Sanskrit etc. will be given special focus in M.Phil. and Ph.D. programs.
- | A Certificate Course of Sanskrit Sambhashan will be conducted by the department of Sanskrit as the promotion and enrichment of our ancient Language.
- | A certificate course on "Peace Management in Shreemad Bhagavad Geeta"
- | The divine language will be promoted through different audio-visual techniques.
- | The Department will also publish short stories for children from Sanskrit literature and the literature of the University will be rendered into Sanskrit.
- | There will be the establishment of an exhibition hall for Sanskrit language & literature in the University.

The central aim of Department of Sanskrit is to foster studies on Indian Eugenics, to study the sixteen Samsakaras from scientific point of view, to make the married couples understand the significance of Garbhadhan Samskar and to guide parents for the holistic development of a child with the help of value-based education. The Department also wants to re-establish the old frame of family system and is determined to present a critique of so-called modern family system. The aim of this department is to achieve the goals such as 'Tapovan Samsakar Centre', 'Couple Counselling', 'Counselling of the Members of the Family' and holistic development of every child with the help of divine language-Sanskrit.

Department will produce a dictionary for school students, covering four languages (Sanskrit, Hindi, Gujarati and English).

SCHOOL OF TAPOVAN

About School of Tapovan

The Children are the creator of bright future. Physically healthy, radiant in mind and intellect, generous by heart and full of inner strength, such children will become the best citizens of the Nation and they will create the Great Nation of Twenty-First Century. For such holistic development of the children Hon'ble Prime Minister and the then Chief Minister of Gujarat Shri Narendra Modi has established Children's University which ensures to provide all needed help and care for the integral development of the Child and Tapovan is its first step towards this new endeavor which would provide Prenatal Care and Education. Because Child education must begin at prenatal stage and education must continue right through the whole life. Thus the expectant mothers have a very unique role to play in this progress of human evolution.

The concept of 'Tapovan'

The concept of 'Tapovan', introduced by Children's University has been formulated taking into consideration the integral development of fetus by rekindling and strengthening the mother's aspiration to give birth to a soul who will be a fore-runner of a New humanity in an age when the people are under a strong influence to achieve materialistic fulfillment and spiritual fullness.

Tapovan has been conceptualized taking into consideration the modern life style of the people. Tapovans will provide an opportunity to pregnant woman to devote herself not only for her self-development, but also for the growth of the fetus taking places within her body because the woman's role is that of a mini creator. So, it is natural for her to feel happy as she is forming a baby within. Motherhood is the happiest moment for any woman. There are many aspects which influences the woman when she is pregnant.

Features

The need of the hour is to create a health care system which offers an ideal milieu for physical, mental, emotional and spiritual well being of expectant mothers. Tapovan is a place where mothers to be will get the necessary and essential requirements for the integral development of a child.

Mother's inspirational thoughts and action make very impression on child's physical body, mind and nervous system. Innumerable instances are mentioned in our sacred books. Even, the modern medical science has proved that the fetus in the uterus absorbs the thoughts and knowledge acquired by the mother during pregnancy. Keeping this in mind every mother should try to keep herself relaxed and happy by having pleasant positive, noble thoughts and emotion. It has been also proved that the embryo reacts to mother's emotional behavior.

About the Infant Counseling Center (Shishu Paramarshan Kendra)

The Tapovan Research Centers under Children's University provide a wide range of activities to mothers before and during pregnancy. Even after the birth of the baby, the parents as well as the family can take full care of the baby and remove the various confusions related to child rearing. The Shishu Counseling Center has been functioning since January 23, 2017. From birth to five years the child learns through observation, imitation and insight. The child makes a very detailed observation of the environment, behavior and behavior around him. Children speak and act as family members speak and act. The family itself becomes an ideal for every infant, especially the parents. The life of the parents, their feelings and their behavior should also be appropriate for the attainment of the best child. The more the mother is immersed in her child, and the more love and time she gives the more sensitive, intelligent and physically and mentally strong child will become.

LEARN TO LEARN: Online Webinar (29/12/2020)

A webinar was organized by Department of Education, School of Innovative Education, Children's University, Gandhinagar on 29/12/2020. The central theme of the webinar was 'Learn to Learn.'

This webinar was inaugurated with Saraswati Vandana. Prof. Ranjitsinh Pawar has welcomed keynote speaker, all guests and throw light on the background of the webinar. The detail introduction of keynote speaker Mr. Dilip Betkekarji was given by Dr. Jignesh Patel.

The keynote speaker, Shri Dilip Betkekarji elaborated on the quotations of Indian education thinkers like Swami Vivekananda, Maharshi Arvind Ghosh and Mahatma Gandhi to explain the concept of learning. He gave an interesting and accurate understanding of the learning process, learning skills, learning environment, factors affecting the learning process, auto-suggestion in the learning process and effective methods of teaching. At the end of the lecture, he said that in order to make the teaching-learning process successful, a radical change is needed in the learning process, in which the teacher expected to teach less and interact more with the students.

6.5 Environmental Cell

The University is very sensitive for environmental protection and awareness, and it remains concerned with various activities for awareness creation and environment protection. The programs such as tree plantation, Arnyotsav etc. were organized on the campus. Moreover the campus has a very rich garden having diverse species of plants and trees. In addition the university has developed the University Circle in the vicinity of its campus situated in Gandhinagar, known as Children's University circle. It is required to mention here that circle has eco-friendly settings. In order to sustain the level of greenery and beauty of its campus the University celebrates a week long festival of planting trees and plants. The campus has more than hundred trees and herbal plants that add a distinct charm to its academic environment. As a part of environmental awareness programa, series of lectures on different topics regarding the preservation and protection of environment is organised regularly.
